

ACCESSING NDIS PHYSIO SERVICES IN A NUTSHELL

What is the criteria?

1. Are you an Australian Citizen?
2. Are you under 65 years of age?
3. Do you usually need support from a person or equipment to do everyday things for yourself because of an impairment or condition that is likely to be permanent?
4. Do you need support now to reduce your need for support in the future?

Obtaining an NDIS Plan for Treatment and Support

Obtaining an NDIS plan can take anywhere between 4 and 12 weeks from approval. NDIS is relatively new, so there are still some teething issues, but we are always here to help at any stage. The great news is that once your plan is in place, you have it for an entire year.

We have produced a fantastically simple flowchart overleaf for how the process works.

How do I manage my treatment once a plan is in place?

Participants are able to decide on how they want to manage their plan at the Face to Face planner meeting.

You have the flexibility to either:

1. Have your case managed by an NDIS Agent, or NDIA
2. Plan manager, who will assist you along the way. This introduction will be made at the face to face planning meeting
3. Self managed if you are confident and happy to look after the process yourself through the My Place Portal
4. Or a Combination of any of these
